COVID-19 Vaccines Available for Children 6 Months and Older

KEARNEY – Two Rivers Public Health Department is announcing that COVID-19 vaccines are available for any person 6 months old or older. Parents are able to bring children to any regularly scheduled vaccine clinic to receive a COVID-19 vaccination.

Two Rivers Public Health Department continues to host mobile vaccination clinics throughout the district on a rotating schedule. To check the schedule for a clinic nearby, please visit <https://www.trphd.org/covid-19/event-calendar.html>

The initial shipments of these vaccines are distributed through population-based allocations. Two Rivers Public Health Department will work with vaccine providers to ensure easy access to COVID-19 vaccines throughout the district.

“We encourage all citizens who are eligible to stay up-to-date on their COVID-19 vaccines and boosters. In addition, keep some at-home test kits on hand and to test if you experience any symptoms consistent with COVID-19,” recommends Jeremy Eschliman, Health Director. Free at-home COVID-19 test kits are available at the TRPHD office and various locations in the district.

ABOUT TWO RIVERS PUBLIC HEALTH DEPARTMENT

Two Rivers Public Health Department engages collaborative partners, community leaders and the public to promote healthy lifestyles, provide preventative education, assure environmental quality, and create more healthy and safe communities for all who live within the district.
